

You want a job? Then look elsewhere, because we are looking for...

pioneers, explorers and pirates

passionate people with an intuitive unwillingness to accept needless boundaries. Urge to create, maker nature, proud of things built, love for everything growing and living.

That's us, SPOUD. We are pioneers in the field of real-time data analytics software and create insights into data that change the way our clients do their business. We blend expertise in real-time messaging technologies, machine learning, and analytics to create never-before-seen solutions.

Our team needs pioneers with a pirate's heart. Specifically, we are looking for a:

Senior Software Engineer (80-100%)

You will be working in our core development team in our office in Bern and help us pushing forward our event-driven platform. As there is plenty of work to do on several fronts, you will be faced with various challenges and responsibilities in the area of Software Engineering, Data Engineering and DevOps. The only requirements we ask for is that you are a passionate developer with several years of experience and you are willing to learn new things.

Your role...

- You will be a fundamental part of our core development team and build our platform
- You will work in an interdisciplinary team together with data scientists, designers and business people
- You will help to find the right technologies that allow us to push forward faster
- You will participate in software architecture and design
- You see the entrepreneurial vision of SPOUD and align your doings accordingly

Your profile...

- 3+ years of relevant experience in Software Development and the ability to write clean code
- Familiar with Software Design and Architecture
- Know-how in state-of-the-art development frameworks, tools, and methods in your field of expertise
- You like to work in a start-up environment, proactively bringing in your ideas and getting stuff done fast
- Bonus: Experience with Java, Go, Kafka, and Flink (because others will talk about it often..)

We offer...

- A diversity of challenging problems and unsolved questions on the technological front and the freedom to solve them in your own way
- A team of experienced start-up enthusiasts who will help you get ahead and will also listen to you
- A young, dynamic, and non-bureaucratic environment with a lot of flexibility
- An inspiring workplace with a fantastic team of creative people in the heart of Bern

Attention: This is not a job. It is a mission where you play an active role in your own journey and tap into a world of potential for your future.

Let's have a coffee together: jobs@spoud.io
