

You want a job? Then look elsewhere, because we are looking for...

pioneers, explorers and pirates Ninjas

passionate people with an intuitive unwillingness to accept needless boundaries. Urge to create, maker nature, proud of things built, love for everything growing and living.

That's us, SPOUD. We are pioneers in the field of real-time data analytics software and create insights into data that change the way our clients do their business. We blend expertise in real-time messaging technologies, machine learning, and analytics to create never-before-seen solutions.

Our Ninja-Project team needs support. Specifically, we are looking for a:

Senior Web Frontend Developer (100%)

Our customers want to be able to easily integrate new and constantly changing data sources fast, and understand the current state and development data quality in order to understand what they have. Therefore you will be working in our project team and help us pushing forward our web frontends, including administration dashboards and wonderful interactive visualizations. Because especially a good visualisation is very important for our own developed product and our customers.

Your role...

- You will work closely with our customers, designer, UX experts and CTO
- You will work heavily with AngularJS, D3, CSS, HTML5, GraphQL and state of the art building tools
- You will also be included in API design, requirements engineering and some backend tasks
- You see the entrepreneurial vision of SPOUD and align your doings accordingly

Your profile...

- BSc/MSc in computer science or a similar field with strong analytical skills
- Experience in software development, especially with web frontends
- Fast learner and ability for strategic thinking
- An awareness of what is meant by "clean code" and "customer centered design"
- You like to work in a start-up environment, proactively bringing in your ideas and getting stuff done fast
- Bonus: Experience with Kafka, Flink, NodeJS and Java (because others will talk about it often..)

We offer...

- A diversity of challenging problems and unsolved questions on the technological front and the freedom to solve them in your own way
- A team of experienced start-up enthusiasts who will help you get ahead and will also listen to you
- A young, dynamic, and non-bureaucratic environment with a lot of flexibility
- An inspiring workplace with a fantastic team of creative people in the heart of Bern

Attention: This is not a job. It is a mission where you play an active role in your own journey and tap into a world of potential for your future.

Send us your application in PDF and let's have a coffee together: jobs@spoud.io
