

Full Stack Engineer

Do you want to play a key role in building our revolutionary product that helps Swiss enterprises to achieve data literacy in the age of Big Data?

Our product, the SPOUD Data Market (SDM) redefines the way enterprises access and integrate business data within and outside company borders. We combine the power of event-processing technologies and machine learning with beautiful user interfaces and visualisations to give our customers the best possible user experience.

Are you passionate to push technology and unwilling to accept needless boundaries? Do you have the urge to tackle complex business requirements and be a pioneer in an unexplored world? Do you want to create beautiful software and be proud of what you build?

Then consider it a match. Because that's us. SPOUD. We are a family of pioneers, explorers and city builders in the area of enterprise Big Data. We are at the forefront of Big Data innovation in Switzerland, so if you are fascinated by the amazing potential of data then you've come to the right place! Specifically, we are looking for a:

Full Stack Engineer (80-100%)

Your Profile

- Professional experience in Java, Python, or other OO and functional languages
- Solid understanding and experience with software architecture and design
- Experience with Spring, Angular, Kafka, Docker, AWS, Kubernetes, and Linux environments are beneficial
- Proven strong problem solving and analytical skills as well as the ability to communicate proactively and work independently
- Desire to be part in a highly committed team in a quickly evolving startup environment
- A passion for Big Data, machine learning and stream processing (experience with related tools is a plus)

We Offer

- A young and motivated team of engineers, consultants, and designers with a strong focus on development
- No bureaucracy, hierarchies, or politics!
- A diversity of unsolved technical questions and the freedom to solve them in your own way
- Flexible working hours, the possibility for home office and you'll get the equipment that suits you best
- A fridge full of free beer, barbecues, table soccer tournaments - all in our office in the heart of Bern

Attention: This is not a regular job – this is a mission. You will play a key role in building a product that helps our customers escape their data limbo. So save your seat on this fast-growing rocket ship and be at the Swiss forefront of innovation in Big Data! We look forward to welcoming you into the SPOUD family (regular BBQs are a must!).

Send us your CV and a cover letter in PDF format explaining why you want to work at SPOUD and then let's have a coffee together: jobs@spoud.io
