SPOUD is hiring a
UI/UX Designer

We are looking for a designer mastermind that elevates our AGOORA product ideas to industry leading, emotionally captivating user interfaces and designs.

Our Product, AGOORA accelerates the evolution of your data culture by creating data transparency and data owners for your teams and organisation.

SPOUD

Your Role

- Work closely with the founders and product manager on the vision of Agoora and make it visual, emotional and unique

- Incrementally evolve new feature possibilities based on user needs and business requirements

- Create high-quality UX designs for different stages of the Agoora development cycle. From sketches, interactive prototypes to high-resolution mockups and design assets

- Guide developers to implement your designs and find pragmatic solutions on implementation challenges

- Identifying user behaviors through contextual research, interviews, focus groups, and facilitation. Improve your work based on these findings

- Designing UI elements and tools such as navigation menus, search boxes, tabs, and widgets for our digital assets

- Create beautiful designs for our webpage, marketing campaigns, factsheets, sales decks and hoodies

Your Profile

- You must have at least 3 years of professional experience working in UI/UX design in a product/IT company

- You know the basic concepts of data processing from raw data to high-level data visualizations

- Understanding and identifying with the needs of our main personas (DevOps, Architects & Business) to deliver accurate, logical and appealing design

- Big Bonus: Understand the concept of Apache Kafka :)

- Experience in website design, mobile application design, and logo design

- You are striving to create an appealing, logical and consistent UX experience and stay persistent until you get it

- Well versed in Adobe XD, InDesign, Sketch, Illustrator & Figma

- Knowledge of user-centered design, usability principles and techniques

- Ability to work in a fast-paced environment and maintain attention to detail. Comfortable in working with rapid iterations and multiple stakeholders

- You are self-motivated, communicate well, love to take action and can differentiate important from unimportant tasks

We Offer

- A unique product development experience

- A place where you can be happy if you like making a difference!

- A diversity of unsolved questions and the freedom to solve them in your own way

- A team of experienced start-up enthusiasts who will help you get ahead and will also listen to you

- A young, dynamic and non-bureaucratic environment with a lot of flexibility

- An inspiring workplace with a fantastic team of creative people in the heart of bern

Attention: This is not a regular job - this is a mission where you can play an active role and unfold your full potential. Save your seat on this fast growing rocket ship and be at the Swiss forefront of innovation in big data! We are looking forward to welcome you to our family (regular BBQs are a must!)

Do you want to join our family? Get in touch with us and tell us about you at **mission@spoud.io**

Please do not contact us if you are a recruiter or an agency, we only accept direct applications. Thx.
